

PANTS LENGTH

Measure down the side seam of the pants to get the full length.

WAIST

Measure across the waistband with the pants laying flat.

HIPS

Measure across the hips, which is as the widest part of the pants when laying flat.

CROTCH

Crotch Front: Measure the front section of the crotch. From the top edge of the pants down to the corner seam at the bottom of the crotch.

Crotch Back: Measure the back of the crotch. Measure from top edge of the pants waist, down to the bottom of the crotch at the corner seam.

Add **Crotch Front** + **Crotch Back** to get the overall Crotch Measurement

THIGHS

Measure across the thigh section, at the highest part of the leg.

KNEE/ CALF

Measure across the pants where your knee and calf would be.

PANTS OPENING (ANKLE)

Measure across the very
bottom of the pants.
